

CyberScout HQ

Available at Community National Bank

FraudScout

... a cyber security tool

FraudScout monitors a full-range of credit and non-credit information that's used to commit fraud. It scours public and private databases, and the Internet black market for the presence and possible misuse of your identity and credit data. If FraudScout detects potentially unscrupulous activity, you'll receive an alert followed by access to 24/7 full resolution support from our experienced fraud specialists who will help you every step of the way.

Available for Purchase: Annual Retail Price \$95.00 / Monthly Retail Price \$7.95
