... a cyber security tool

Social Media Monitor

Social Media Monitor is an intelligent scanning engine that connects directly to Facebook, LinkedIn, Instagram and Twitter.

It identifies potentially harmful information about you and your children quickly, giving you valuable time to fix it before it causes irreparable harm. Looking for inadvertently exposed personal information, inappropriate posts, or cyberbullying associated with your accounts, Social Media Monitor alerts you about activity that could potentially harm you and your children's safety, reputation and identity online. Daily, actionable alerts about exposures of your personal information and malicious activities let you know if you need to take action with recommendations on next steps to fix the problem or quickly take action to protect your child.

Available for Purchase: Annual Retail Price \$95.00/Monthly Retail Price \$7.95
